

Type:	Sports Arena
Location:	Guaynabo, Puerto Rico
General Contractor:	Caribbean Equipment
Maxxon Dealer:	Alvarez Trading, Santurce, PR
Scope:	4,750 m ² WearTop Bonder and Level-Right WearTop poured at a depth of 6mm

When it was time to renovate the Mario Quijote Morales Colliseum, the arena floor took center stage. The floor was cracked and damaged from many years of use. To fix the floor and provide a smooth, durable, wear surface Level-Right WearTop and WearTop Bonder was selected. WearTop was poured at a depth of 6 mm and was sealed with a Prosoco urethane sealer.
