

2 Story Radiant Heat Residence

Type: Residential
Location: Mexico City, Mexico
Project: Private Residence
Dealer: Comercializadora Plural S.A. de C.V.
Scope: 500 m2 Maxxon Level-Right

This new private residence received 38 mm of Maxxon Level-Right over radiant tubing - both stories. Not only did the Level-Right provide a smooth and level surface for floor goods, but also provides a even heat with its radiant mass.

Level-Right over radiant tubing

Smooth, level and flat floor

Notice the heat manifolds in a cabinet on the wall

Floor ready for ceramic tile
